

Optimise shutdowns, maintenance and asset management

When carrying out planned or unplanned maintenance, or managing a major construction project, you need a highly experienced partner you know can deliver.

Backed by Australia's largest equipment hire fleet, Coates Industrial Solutions can provide a turnkey solution to help you minimise disruption and downtime.

From planning to execution, our specialist team can manage all tooling, equipment, consumables, certification and traceability for projects of any size, complexity or duration.

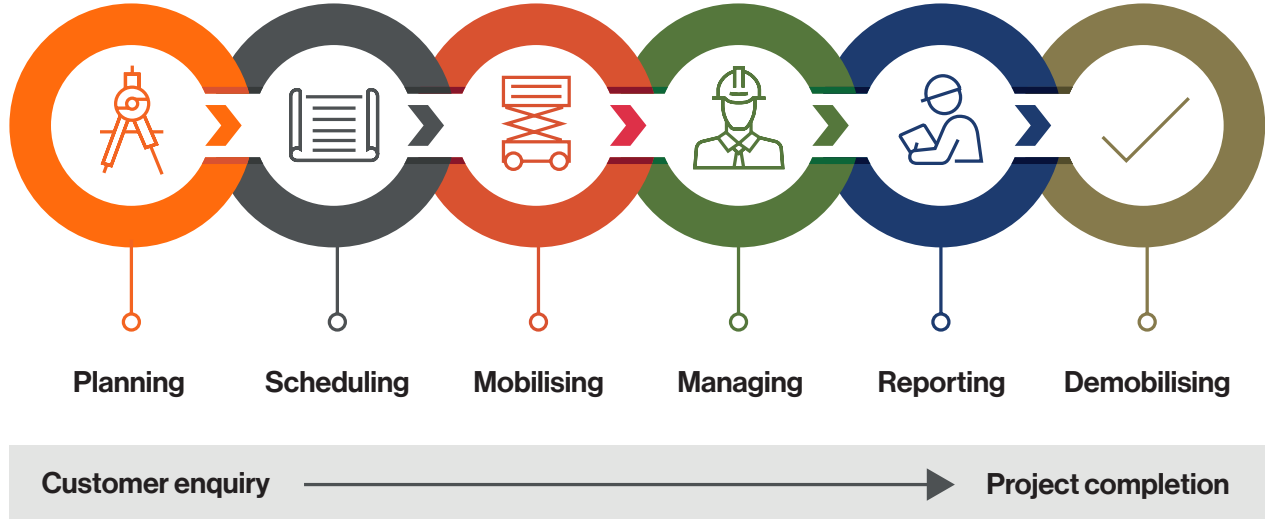

Coates

INDUSTRIAL SOLUTIONS

Supporting you at every stage

Whether you need a full shutdown management program or streamlined equipment and facilities management, Coates can provide a flexible solution tailored to your needs.

Our end-to-end offering means you can engage one supplier to provide both equipment hire and specialist support services, resulting in less risk and greater efficiencies.

Discover our site-based solutions

	<p>Tools and equipment</p> <p>Access our extensive equipment fleet, nationwide logistics network and fast field service.</p>
	<p>Project management</p> <p>Minimise disruption and downtime with comprehensive planning and implementation support.</p>
	<p>Drone inspections</p> <p>Save time and money with aerial inspections and use 3D digital models to plan maintenance.</p>
	<p>Smart sites</p> <p>Improve productivity using telemetry and low-power wide area networking (LPWAN) technology.</p>
	<p>Tool stores</p> <p>Manage all tools, equipment and consumables via a manned or unmanned tool store on site.</p>
	<p>Consumables</p> <p>Streamline consumable inventory management via on-site tool stores or vending machines.</p>
	<p>Asset management</p> <p>Improve tool time efficiency and manage, monitor and control costs with our proprietary system.</p>
